## 70/PKT - transparent

### Hand Lever Grease Gun with shock-resistant, clear plastic barrel UMETAN 2.7

- for 400 g ( 14.0 oz.) grease cartridges or 500 ccm (16.0 oz.) bulk grease
- with TWIN-LOCK system and EVER-FLOW system
- standard with filler valve (DIN 1283), alternatively with air release valve

The clear plastic barrel UMETAN 2.7, specifically developed for this application achieves a unique benefit. It enables you to check the type of Due to the transparent tube, the type of grease cartridge or bulk grease is always visible. Even when using different types of grease, there is no risk of mixing up. Despite that, the remaining quantity can be controlled very easily. While filling with bulk grease, you always have full control about the grease level. The danger of overflow or halfway filling is nearly eliminated. The extremely light polyamide barrel with the extra band knurls ensures optimal and comfortable handling, also at cold temperatures. The robust material combines the advantages of rust-resistancy and form stability, even with crashes and other impacts.
