

ASSORTMENT BOX: REPAIR ADAPTER Self-forming thread

UMETA
A WIGGEN-GROUP COMPANY

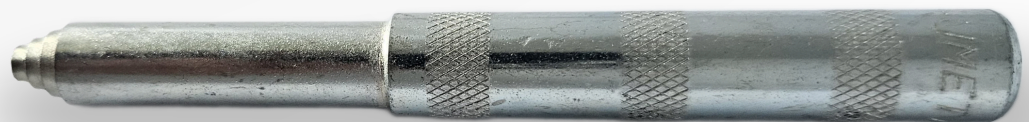

REPAIRING DEFECTIVE INTERNAL THREADS

THREADED CONNECTION WITHOUT CUTTING

IMPACT MANDREL FOR OPT. HANDLING

- Easily restore damaged internal threads to working order:
 - 1) Place on damaged hole
 - 2) Tap lightly
 - 3) The adapter now pulls itself via clockwise rotation into the damaged hole
- Threaded connection possible without any thread cutting
- No chips due to molding processes
- Hardened version
- With drive-in mandrel for optimum handling
- Also available as a workshop range with metric connection thread (inch connection thread possible)

MULTIFUNCTIONAL HAMMERING TOOL
